Whether you are a member of ACEC of Arizona, AGC Arizona Chapter, APWA, ASCE, NUCA or TUCA, you know first-hand about the tremendous impact state and federal laws and regulations have on your day-to-day work. As part of National Engineers Week, Thursday, February 23rd is the one day in 2012 when we as a profession are gathering in force at the State Capitol to present our industry's viewpoints in person to our state legislators. It is a chance for each of us to meet with our Representatives and Senators to discuss pertinent to our industry, to you as an individual professional, and to you as a citizen.

ACEC of Arizona, AGC Arizona Chapter, APWA, ASCE, NUCA and TUCA sponsor and coordinate this event to promote communications with our state legislators. We are arranging a joint luncheon on the House Lawn and we will be providing "talking points" on key issues for you to utilize. Members of the Arizona legislature respond best to their own constituents, so your expert opinion will carry even more weight as your legislator considers important issues to our industry.

Please plan to attend this very important event and demonstrate to the legislature that design professionals speak with a strong voice. Complete and return the following registration form.

Attendee(s) _____

Business _____

Phone () _____
